

Agloco Referral Link / Viewbar

21st November 2006

From Official Agloco Blog <http://aglocoblog.blogspot.com> -----

There has been some confusion about how to set up the referral link.
To send a link that includes your referral id, you should type it as follows:

www.agloco.com/r/MEMBERID
so for example of your ID was BBBB1234

the link that you can send to others to sign up with would be
www.agloco.com/r/bbbb1234

Several Members have asked us where they can download the Viewbar.

The Viewbar is currently in limited beta testing. Once final testing is completed, we will make it available for all our Members to download. The Beta testers are all volunteers and are not earning any revenue for trying out the system.

In the meantime, you as an early Member can continue to recruit new Members and start building out your network. As an early Member, you have the best chance to recruit your friends since they will not yet have been approached.

As the AGLOCO Membership expands some of your friends will sign up under other people and no longer be able to be recruited. So seize this opportunity to reach out to all your friends and build your network...

Launching in English and Chinese was an aggressive target, but certainly worth it. Comments have been coming in and some of the members that know the founding team have been calling in to say congratulations.

Thanks to all that sent in their well wishes, notes of encouragement and comments. We appreciate your support.
